GRAPHIC DESIGN

WHAT CAN YOU EXPECT?

This course introduces participants to the software and techniques used in producing 2-dimentional animations. Participants who complete this course are able to produce 2D animation clips for virtual reality experiences, adverts, films, and a whole lot of other applications.

WHO SHOULD TAKE THIS COURSE?

This course is is great for content creators in general and is a must-have for people who work with motion pictures and graphics. Hobbyists, enthusiasts, and people who would like to develop a career in film, content development, or animation are highly encouraged to take this course to develop the foundational knowledge and skills in 2D animation.

WHAT IS INCLUDED?

In this course, participants are introduced to the software which can be used for creating 2D animation products. They acquire skills in the use of one such application (which skills apply universally to 2D animation applications). Participants learn how to storyboard, create characters and scenes, rig characters, animate characters, and produce scene sequences.

HOW SHOULD THE COURSE BE TAKEN?

This is a blended course which requires participants to attend in-person learning sessions during which they learn the concepts and techniques of 2D animation, and online components which provide ample opportunities for participants to practice animating. Participants will ideally have a computer with a Core i3 processor or better on which they can practice 2D animation.

At the end of the course, participants are invited to showcase their 2D animation products and stand the chance to win prizes as they meet potential employers and funders.
