

DIGITAL LITERACY

WHAT CAN YOU EXPECT?

When you take this course, you will learn everything from the basics of how to turn on a computer and connect to the internet, avoiding the threats which you are exposed to on the internet, and the technologies such as Artificial Intelligence, Internet of Things, Virtual Reality, and 5G which are shaping the 4th Industrial Revolution.

By the time you complete this course you will be using digital technologies confidently, efficiently, and effectively, and you will be less exposed to the risks which come with using digital technologies.

WHO SHOULD TAKE THIS COURSE?

This course should be taken by everyone who uses digital technologies and the internet. The course is good for people who are new to digital technologies as well as people who have been using digital technologies and the internet for some time but would like to improve their security and make more efficient use of digital technologies.

WHAT IS INCLUDED?

This course includes introductions to digital technologies including computers, laptops, tablets and other devices which have been around for a long time, and IOT devices, Virtual Reality and Augmented Reality devices which are newer and which participants of this course may not be familiar with.

HOW SHOULD THE COURSE BE TAKEN?

It is recommended that participants immediately practice what they learn in this course and that they consistently practice what is presented in this course.
